2ND MAIN STAGE 23:55 End of Logistics Summit 2021

Programm Tag 2

14.10.2021 MASTERCLASSES

2ND MASTERCLASSES

10:00 Coffee break

2ND MASTERCLASSES

10:15 How to manage the seasonal peaks in retail smartly and efficiently (AM Logistic Solutions)

(Vortrag auf Deutsch)

The optimal warehousing solution for seasonal order fulfilment peaks How do you cope with seasonal highlights in retail? If your order volume multiplies within a few days, a flexible and time-limited solution seems to be the right answer. We will show you solutions on how you can accelerate your automated warehouse quickly and safely, without having to invest much.

2ND MASTERCLASSES

10:45 Pick smart with the CAPTRON Pick Cart

(Vortrag auf Deutsch)

Driven by our pioneering spirit, we are always working to develop and optimize innovative applications for the industry – the latest result is Pick Cart. Get to know the smart logistics solution in our masterclass: We will guide you through the basics of our system, explain how you use it in your environment and show you the advantages it offers you. The processes in your warehouse have never been as efficient.

MASTERCLASSES

11:45 Masterclass leogistics

(Vortrag auf Deutsch)

Christian Carstens
leogistics

2ND
MASTERCLASSES

12:00 22 years of project business vs. 1 year of product business – rethinking complex warehouse management

(Vortrag auf Deutsch)

Do you use a classic software solution in complex warehouse management or do you rely on "Software as a Service"? Warehousing can be rethought - without the time-consuming creation of requirement and functional specifications! storelogix is based on a product approach and the basic idea of standardizing logistical processes. This allows to implement the warehouse management system in just 6 weeks, even including the necessary flexibility for future requirements. Holger Meinen worked in the project business for leading WMS companies for 22 years. He is convinced: storelogix and "Software as a Service" will change the industry permanently. Be part of a surprising experience report!

2ND
MASTERCLASSES

12:15 Masterclass Swisslog

(Vortrag auf Deutsch)

Timo Landener
Swisslog

2ND
MASTERCLASSES

13:15 It's not about smart AGV. It's about making smart AGV-based automation.

(Vortrag auf Deutsch)

AGV-based automation offers flexible, future-oriented process automation for logistics and production logistics. Dynamic, scalable, space-saving. The introduction of smart AGVs alone does not always lead to high benefits. In a complex, demanding environment, comprehensive integration of AGVs into processes is required. movizon's masterclass ranges from what is possible today to what is imaginable in the future. The presentation outlines a path, beginning with a possible entry into the technology and supports all future development and expansion stages. Flexible. Scalable. Investment-proof.

Sven Wosny
movizon
