

SIRUM TME

Wie uns Ameisen dabei helfen die Transportbranche zu digitalisieren

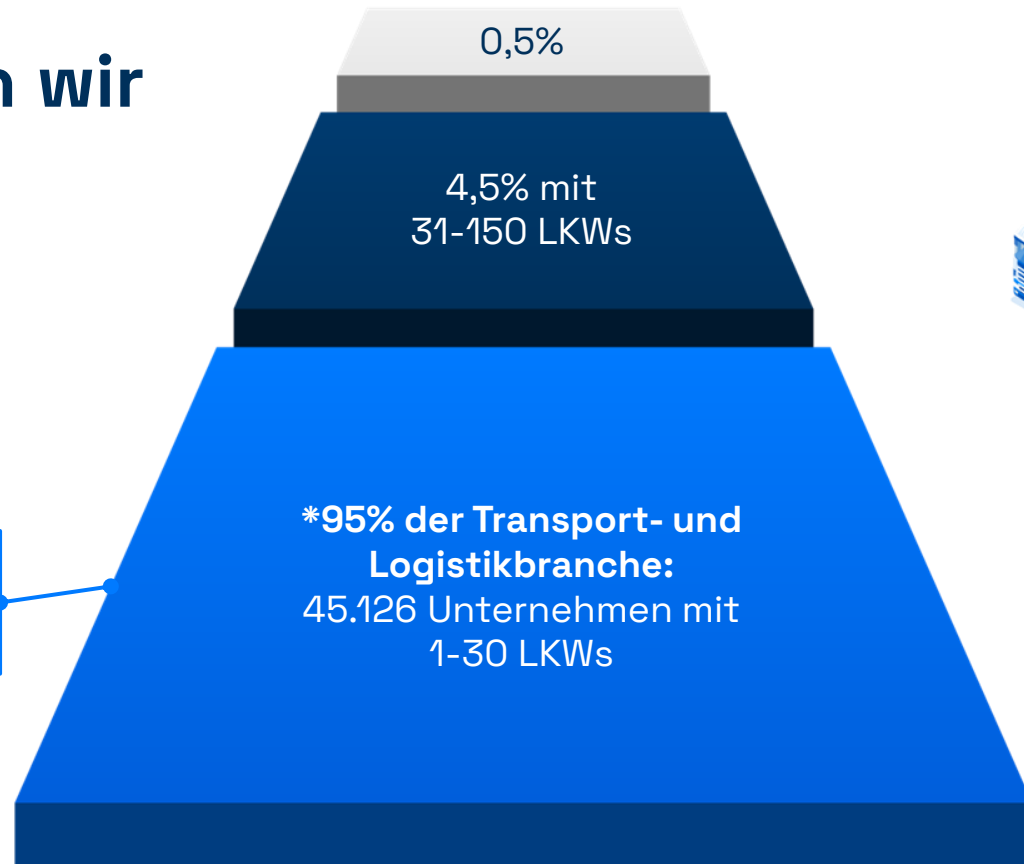

A close-up photograph of a large colony of ants on a piece of weathered wood. The ants are dark brown with reddish-brown abdomens and are scattered across the wood, some in a dense cluster. The wood has a natural grain and some small holes.

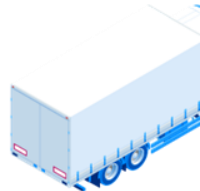

**„Es gibt 10.000
Billionen Ameisen auf
der Erde, die gleich
viel wiegen wie alle
Menschen auf der
Welt.“**

Wie digitalisieren wir Lieferketten

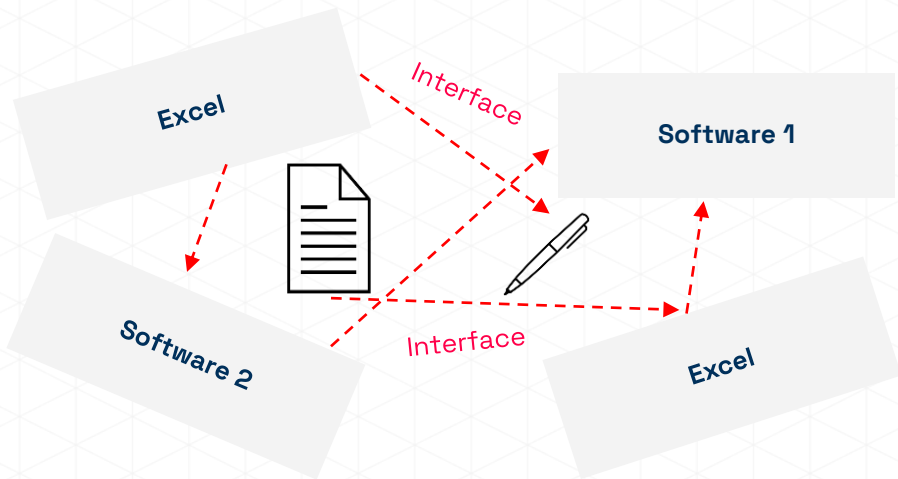

85% der Transportunternehmen haben keine moderne Transport Management Software.

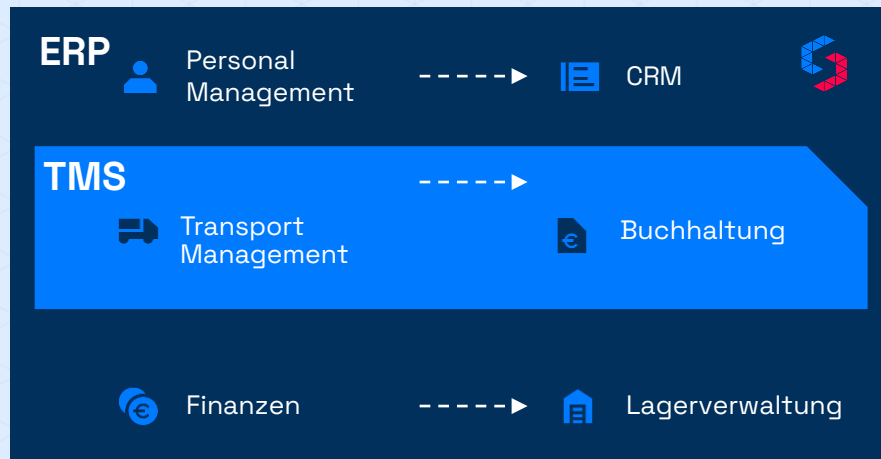

***95% der Transport- und Logistikbranche:**
45.126 Unternehmen mit
1-30 LKWs

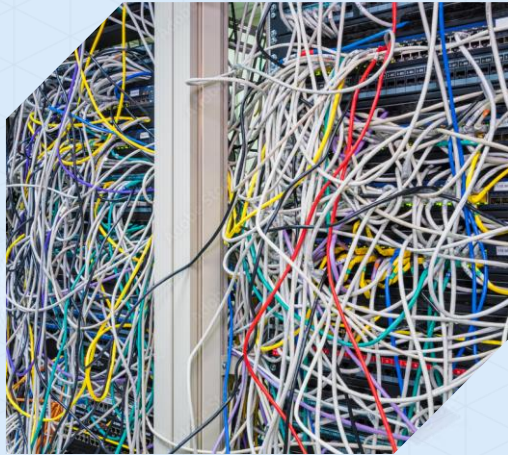

Ineffiziente Datenlandschaften

„All-in-One-Lösung“

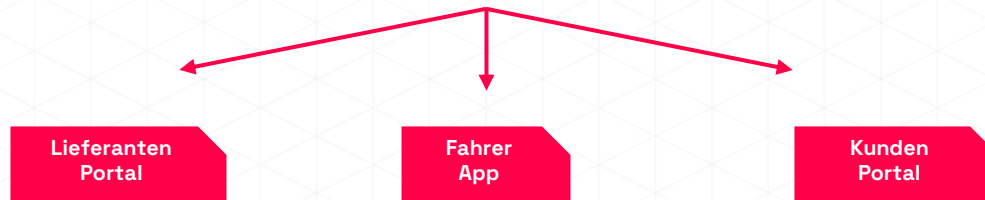

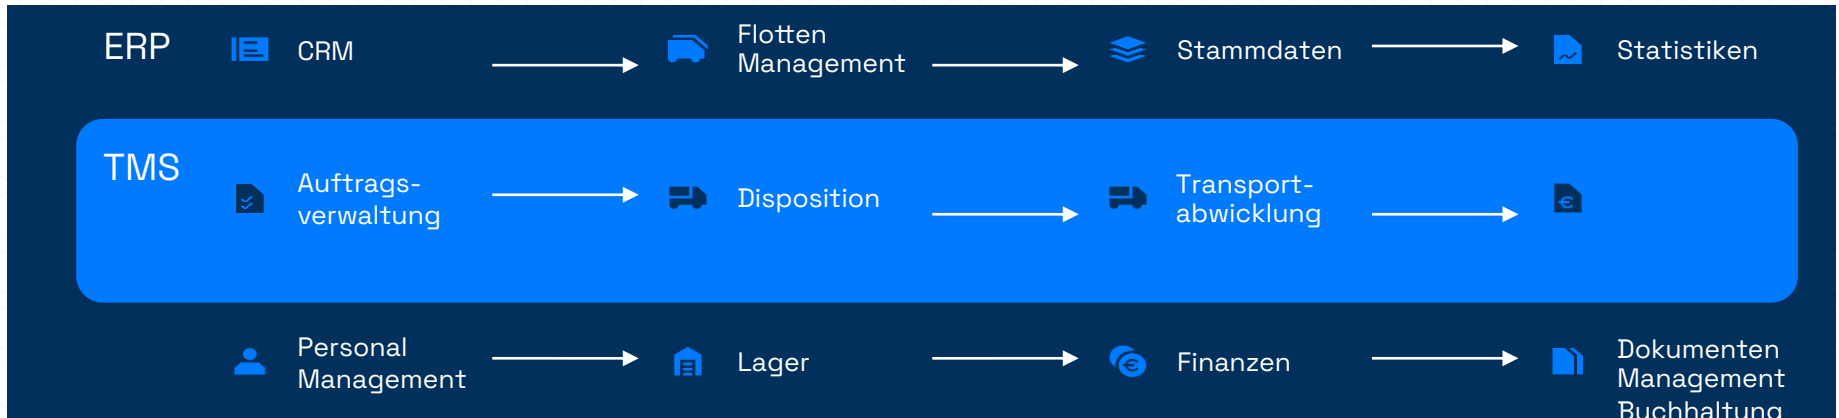

Komplexe Server-Lösungen

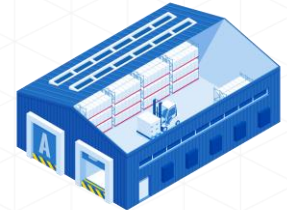

Unsere web-basierte Lösung
